FLAG STATE INSPECTION

Marine Surveyor Consultant can provide Flag's inspector for Liberia and Palau to carry out an inspection on behalf of the Administration with high-quality standards.

OCIMF VESSEL INSPECTION (SIRE-OVID)

SIRE & OVID Database is an inspection protocol that will allow project and marine assurance teams to assess the safety and environmental performance of a vessel and its operators in a more effective and uniform manner. Our inspectors are accredited by the Oil Companies International Forum (OCIMF).

SAFETY INSPECTION

Through safety inspections and observations on board your ship, our professionals will develop a useful and practical analysis of safety issues, along with recommendations for problems remediation. Safety consultants are trained to assess ships and provide written feedback of findings in a manner that is easily understood by the client.

I N S P E C T I O N

PRE-VETTING INSPECTION (SIRE-CDI-OVID-RIGHTSHIP)

Oil, Chemical and Gas ships. We carry out thorough inspections on the lines of SIRE, CDI, RIGHTSHIP & OVID, to appraise you about the current compliances of the vessel for these programs. We assist ship's staff in preparing the vessel for the most stringent inspections. Our approach is to develop a customized service with the client that encompasses his specific needs for a certain type of vessel or operation on the basis of the outcomes of a risk assessment.

PRE-PORT STATE CONTROL INSPECTION ASSISTANCE & Cases Follow - up

You need a reliable partner who supports you to ascertain that, statutory rules and regulations are complied with, helping identify issues thus reducing the risk of detention during a Port State Control inspection

TERMINAL SAFETY SURVEY

For charterers, operators and terminals, we can perform safety supervision of vessel operation during her entire port call. Major industry players regularly call us to provide assistance in promoting safety during risk sensitive operations on board tankers, either at sea or during operations in port.

I N S P E C T I O N

PRE-VETTING INSPECTION (SIRE-CDI-OVID-RIGHTSHIP)

We provide independent surveys and reports of the current condition, class status and life history of a vessel. These can provide vital information to help the evaluation of a proposed investment by identifying potential problems. We help in reducing the business and technical risks you face when buying or chartering a second-hand vessel.

- **COMPETENCY ASSURANCE PROGRAM FOR SEAFARERS AND SHORE-BASED PERSONNEL**

TMSA / OVMSA - HSQE - ISM / ISPS

Your management systems can rapidly be improved to meet the most stringent requirements of ISO Standards, or any other references such ISM/ISPS, MLC, TMSA/OVMSA. We assist you with procedures; system development, familiarization and implementation; integrated management system; risk management; incident investigation and analysis; KPI; ship's manual preparation.

MARINE CLAIM MANAGEMENT (Hull & Machinery) ASSISTANCE

Safety at sea is far from being absolute. Maritime craft is subject to unpredictable natural phenomena like sea perils, human errors, as well as modern events like terrorism and piracy. Our personnel is qualified to investigate the main cause which generates the damages, nature and the extent. Our main services include insurance claim analysis and management; technical assistance; survey; inspection

VESSEL RE-COMMISSIONING ASSISTANCE

Vessel owners can benefit from our in-depth competence in vessel recommissioning. We support Owner / Technical management in vessel recommissioning safely and efficiently; our personnel is fully aware of Class and Flag State requirements and is capable of assisting you in bringing vessels up to all required standards for active use.

SHIP VETTING OBSERVATION ANALYSIS

A major problem associated with vetting, is improper replies to the ship vetting observations from CDI & SIRE, leading to vessels being rejected for employment by the charterers. We provide vetting observation review and response on behalf of the technical manager/vetting department. Root cause identification. Recommendations for improvement

SHIP MANAGEMENT

The best experience you can have in technical management with tailor-made solutions. We have the right competence to manage a wide range of marine assets to maximize vessel performance and utilization.

COMMERCIAL ASSISTANCE

We can charter your vessel at the best market rates by operating in the market through our extensive network. We provide charter party negotiation and drafting for any Dry Bulk and Tankers fixture and all post fixture activities can be handled.

SHIP TO SHIP SERVICE PROVIDER CONSULTANT

Our aim is to support STS Service Provider companies in completing Self-Assessment gap analysis and related procedures to achieve oil Major approval.

SECURITY CONSULTING

Professional security management practices are considered to be essential if exposure to risks from terrorism, piracy, smuggling, theft, stowaway and other criminal activities are to be reduced. We have developed a comprehensive range of ship security services designed to assist ship owners, managers and operators to meet the ISPS Code Requirements.

MARINE CASUALTIES ASSISTANCE

We are specialized in the field of incident investigation, auditing, and training (Third-Party Auditors/Inspectors), as well as in the development and implementation of risk-based Safety, Health, Quality, and Environmental Management Systems.

S E R V I C E S

T R A I N I N G

Today's ship owners, managers and operators are under constant pressure to demonstrate that vessels they operate on, are safe either with equipment and with the ability of the crew to operate in safe manner. There is a growing demand for onboard training services to refresh crew knowledge and verify the safe operation through training, drills and exercises. Our training services are designed to support your crew.

ON BOARD TRAINING

An evaluation of vessel and crew needs will be undertaken in consultation with the Management Office and the Master and consequently supported by drills and exercises.

MARITIME TRAINING ACADEMY

We support you with tailor-made courses for your company. Our team provides training and courses so that you can operate in compliance with the latest trends and international industry standards.
